[Lehi-Based Lie Detecting Technology Company will Join Governor's Trade Mission](#)

"Converus is a great example of how a Utah company teams up with the business and investment community of Mexico to help both economies," said Governor Herbert. "The EyeDetect technology should be particularly appealing to companies and investors in Mexico."

[Gov. Herbert: Utah's Great Secret is in the Fundamentals](#)

Saying Utah must go after the global market, Herbert explained he would lead a trade mission to Mexico this week and another to Brazil later this year.
