# **Collaborating & Contracting With the U.S. Army Engineer Research and Development Center**

## **Virtual ERDCWERX Workshop Jan. 16, 2024 @ 9 a.m.**

The Utah APEX Accelerator introduces ERDCWERX, a government partner of the U.S. Army Engineer Research and Development Center (ERDC).

ERDCWERX provides a streamlined path to collaboration and contracting with ERDC. Its events, tech challenges, and other opportunities make it easier and faster for innovators to propose solutions for consideration by ERDC.

**During this workshop, you'll hear from Janice Karcher, deputy director of ERDCWERX, and ERDC representatives and learn about:**

- ERDC and its focus areas
- Tech challenges, Other Transaction Authorities, Commercial Solutions Openings, and other opportunities for small businesses to collaborate with ERDC
- Licensing ERDC technology
- Ways to receive project announcements

Zoom link to workshop will be emailed to attendees on January 15th.
