UTAH INTERNET SPEED TEST CAMPAIGN

The Utah Broadband Center, powered by the Governor's Office of Economic Opportunity, is launching the Utah Internet Speed Test Campaign. It's a statewide effort for all Utahns to report their internet speed at home, work, or wherever they connect to broadband. **The Speed Test is meant to be taken by everyone. Let us know if your internet speeds are high, low or you don't have access at all.**

The Speed Test Campaign will help:

- Reveal areas of Utah that lack high-speed internet connection to homes and businesses and the reasons why
- Direct funding to provide reliable broadband access throughout the state
- Discover where there are great broadband internet speeds and promote economic opportunities

Please help us identify Utah's areas with the greatest need for internet speed at this URL: speedtest.utah.gov. It only takes 60 seconds.

The speed test form is available in both English and Spanish.

For individuals who do not have access to the internet, please call the campaign's hotline at 1-435-777-TEST (8378).

YOUR INTERNET SPEED

SHARE THE UTAH INTERNET SPEED TEST CAMPAIGN

Help spread the word to your friends and family. Share the speed test with them in person or online. Please reference the Utah Internet Speed Test Campaign or use **#UtahSpeedTestCampaign**.

The more you help us spread the word, the more data we'll receive. Having more information increases our eligibility for funding. We can then improve broadband access where it's needed most.
